## Handling Public Money Is Grave Responsibility

Every month County Auditor Homer Preibisch audits the reports of county officials receiving and administering public funds, and submits a complete report of his findings to the court as well as the officers. Not only has he found each such county official's fiscal affairs in perfect condition each time, but county officials have repeatedly stated that they not only welcome but insist on careful audits of their offices, which shows mighty good judgment. It is good business and to a great extent avoids the possibility of misunderstandings.

This week District Attorney J. Lee Dittert received a copy of a letter written by the county auditor of a Texas county, to one of that county's commissioners. Here is the copy:

"Dear Commissioner:

"I want to call your attention to the following facts about your precinct.

"1. You have spent over 36% of the 1948 anticipated income in the first quarter of the year.

"2. Your precinct at this time is about \$1,500 further in the red than it was the same date last year.

"3. For the first quarter of 1948 you spent more money than any other precinct, and precincts Nos. 1 and 2 have a much greater anticipated income than your precinct.

"4. Precinct No. 4 has the same anticipated income as Precinct No. 3, yet you spent \$1,740.00 more than Precinct No. 4, in the first three months of 1948. Furthermore Precinct No. 3 had a deficit and Precinct No. 4 was not in the red.

"I am of the opinion, the people of Blank county do not expect you to spend more money on the roads in the precinct that they provide.

"You are intelligent, capable, and have the reputation of being a good business man, or the people would not have elected you as their commissioner. There is no difference in running the financial affairs of a county or a precinct than there is in one's private business pursuits. A precinct as you are running yours is destined to financial failure, whether you believe it or not.

"I assure you that I as county auditor, the county judge, and the other commissioners stand ready to advise with you."

That letter took some courage to write, undoubtedly. It is to the credit of our county officials that they ask for periodic and exhaustive audits of their financial affairs.

Taxpayers are entitled to know exactly how their money is being spent, how much is available for immediate use, how much is needed for retirement of bonds and other indebtedness, and how much for other uses.

School districts, counties, and larger divisions of government should regularly publish comprehensive and detailed statements of income and money spent. Not only is the public entitled to have this information at regular intervals, but having it would avoid a thousand misunderstandings. Armed with accurate figures, arguments for or against public policies are substantial. Without such figures, all discussions approach the status of rumor, and hence have little weight.

How can we effectively suggest that more money be spent for roads and bridges when we don't know how much is being collected for that purpose, what part is being spent to retire bonds, how much goes for material, for labor, for gasoline, etc.? How can we effectively advocate higher salaries for teachers, improved facilities at the schools, etc., if we do not know what the tax and other revenues provide to be spent, and if we don't know how the revenues are being spent?

The basis of unfavorable criticism of honest public officials is almost always a lack of information. Publication of a comprehensive and detailed statement of income and expenditures for all to see and study, would do much to avoid misunderstandings.

## TOMATOES BRINGING 10 CENTS POUND HERE

Tomato growers were wearing broad smiles to-day with the market one cent above the opening price.

Ripe tomatoes in No. 1 variety were bringing 10c per pound also. The tomato crop is short but the quality is good. At the price which was being paid Monday and Tuesday tomatoes were bringing the farmers \$6 per bushel.

## PLANS ARE MADE FOR CLEANUP IN CAMERON

The Chamber of Commerce Tuesday night voted to throw its weight behind a clean up campaign in Cameron.

The suggested outline of the clean-up was given by Dr. C. G. Swift, county health officer.

L. G. Smith, manager of the Chamber of Commerce, said that a committee planned to visit Temple Wednesday or Thursday and study the plan there. The Cameron clean-up calls for fogging machine to put out DDT. These machines are expensive but an effort will be made to get one, it was said.

Leaders in the movement to get the city cleaned up regard the demand as compelling since Polio is on the increase but on the whole the clean-up is badly needed, regardless of danger of Infantile Paralysis.

## PYTHIANS HERE WILL AWARD VETERAN JEWELS

Pythians of Milam Lodge No. 125 are planning an important meeting for Monday night, June 14 and the time is 8 o'clock.

Two 25 year veteran jewels will be presented at this meeting and refreshments will be served.

The following have been nominated and will be elected at the meeting on Monday night: John Davis, Chancellor Commander, Shirley McLean, Vice Chancellor, Tom Hobson, Prelate, Thomas Brashear, Master of Works, R. L. McCown, Master of Arms, E. W. Rutherford, Inner Guard and W. W. Love, Outer Guard.

## Mercury Hits 101 In Cameron Tuesday

The highest temperature of the year was recorded in Cameron Tuesday. It was 101. Temple had 102.

The heat wave has extended over large sections of the state and the drouth is taking a heavy toll in grain crops.

There was little chance that rain would come, although it would be cloudy for the next 24 hours and after that more heat and more brassy skies.

Cotton is doing well but corn in some sections will be lost if rain does not come this week.

Mrs. Betty Odom of Milano is a surgery patient in Newton Memorial Hospital.

B. Miller, State Field Representative of the Farmers Home Administration visited the Cameron office Monday and Tuesday of this week.

## Old Awnings Come Down In Face Lift For Buildings

Old awnings, dangerous and painful to the sight, are coming down.

Workmen are busy scaffolding for plastered fronts on the Taylor Building and the Lillian Mondrik Building across west from the Court House Square.

Awnings have been removed from over the sidewalks by these buildings and the hot sunshine was scattering the germs. The new front look extends to the corner where Henry Lippman some time ago removed the awning from the Moore Building where the Corner Cafe is located. This building has been plastered.

## Health Unit Retained By Milam County; Pay Support Is Hiked

The Milam county health unit will be retained and with more financial support from the county.

The Commissioners Court is now assuming a large share of the cost of the unit. When the unit was allocated to this county by the state health department the county paid 30 per cent of the cost and is now paying 60 per cent of the cost. The city of Cameron has been paying \$1000 annually to the support of the unit.

Dr. E. S. Freeman is director and D. S. Wimberly is sanitarian.

## Corsicana Had 10 Million Valuation; Makes Tax Survey Now Has 32 Million

CORSICANA, June 8—Corsicana property valuations were placed at \$32,480,577 by the George C. Ehrenberg Co., Dallas, appraisal engineers, as they concluded their re-valuation for purposes of equalized taxation.

Last year Corsicana paid on a roll of \$10,700,000 but this did not represent a total valuation, but only a per cent.

The Ehrenberg report broke down the valuations as follows: Real Estate, \$23,370,365; personal, \$5,330,212; utilities, etc., \$3,780,000.

## Unique Feature At Theatre Shows How Big Paper Produced

A unique feature at Cameron Tuesday under the film This is America was a study of how a great newspaper is produced.

The film took the patrons of the Theatre through the maze of work and detail of producing the New York Times, World's greatest daily newspaper.

Those outside the publishing profession as well as publishers appreciate the disclosures of this great film.

## Man Escapes Injury As Train Hits Car

Harlan Dodd narrowly escaped death at 10 p. m. Sunday when his car was hit by a Santa Fe Passenger train at Elevation.

Mr. Dodd was brought to a hospital in Cameron, but it was found he was not seriously injured, according to officers who investigated the accident.

Mr. Dodd's car stalled on the track at Elevation between Milano and Caldwell in the Sand Grove Community.

## Hot Winds Threat To Corn Crop Here

Planters were looking for possible signs of rain in the brassy sky Tuesday as hot winds and high temperatures threatened the corn crop.

The drouth is very serious in some sections of central Texas and while conditions here are not critical if rain does not come within a few days corn crops will be ruined.

Cloudy weather was forecast for Wednesday and some indication of showers in north and central Texas.

Mrs. W. R. Hoover of Brownsville on her return from attending the graduation exercises of her son, David of Oklahoma spent Sunday in Cameron visiting old friends. David received his degree from the Oklahoma University in a graduating exercises the past week. The Hoover's formerly lived in Cameron.

### CONGRESS EXPECTED TO PASS BILL TODAY

A two year draft bill for young men from 19 to 25 was expected to be passed by the Congress by Thursday.

The Senate also passed a measure permitting 25,000 aliens to serve in the armed forces.

Passage of the measure and the signature of the President will call back into action the draft boards over the nation. The Senate was expected to pass a civil rights amendment to the draft law permitting segregation on request.

### TWO PATROLMEN ARE TO REPORT FOR DUTY

Texas Department of Public Safety will assign two Patrolmen for permanent duty in the Cameron area beginning about July 1 according to Homer Garrison, Jr., Director.

Mr. Garrison has written a number of letters making the assignment.

Representative A. N. Green has given The Daily Herald a letter and in addition the Chamber of Commerce has received a copy of the letter written to Representative Henry G. Lehman of Giddings.

The Chamber also received a letter from Senator Kyle Vick of Waco apprising the chamber of the designation. Senator Vick also has enclosed a letter to The Herald.

Mr. Garrison in his letter says: "It gives me pleasure to advise that on or about July 1, two Texas Highway Patrolmen will report for duty in Cameron. The good people in and around Cameron have repeatedly requested that we assign two Highway Patrolmen to this area to enforce traffic regulations and thereby prevent the needless toll of life, injury and destruction of property."

Cameron's housing situation has again posed a problem. The Patrolmen will need places to live. Steps were being taken to provide them with homes and the news of their coming will be received with applause by the people and local officers will give them every possible co-operation.

Miss Beatrice Dodson, student at Durham's Business College in Austin visited this past week in the home of her parents, Mr. and Mrs. C. T. Dodson.

### REPTILE ROAMED TEXAS 100 MILLION YEARS AGO

WACO, June 8—The bones of a dinosaur which roamed Texas 75,000,000 to 100,000,000 years ago were dug out of the shale below Lake Waco dam.

Zoologists said it was plesiosaurus, a member of the dinosaur family which swam the shallow seas which then existed in Texas.

By night a battalion of Baylor zoology and geology students directed by B. C. Brown in charge of the Baylor museum, and Richard L. Bronaugh, zoology professor, had scraped the shale from enough of the ancient reptile to allow the bones to stand out in sharp relief against the blue shale.

They plan to make a plaster cast of the exposed part of the 20-foot plesiosaurus, which apparently curled up in agony and settled on its side on the bottom of the Mesozoic era sea, to be preserved for the 20th century by layers of Eagleford shale.

Baylor experts do not plan to take the reptile out as a skeleton, but were cutting out a large square block of the shale which will contain the partly exposed skeleton. The square of former sea mud will be moved to the museum.

The reptile which lived in this area during the upper Cretaceous period of the Mesozoic era would be about 20 feet long if part of his tail, which is missing, could be found. The zoologists say reptiles of this type grew to a average of about 35 feet.

### MRS. JOHN CRAWFORD DIED EARLY TUESDAY

Mrs. John Crawford, 91, died here Tuesday, June 8 at the home of her son, T. A. Crawford.

She was the widow of the late John Crawford, pioneer who died some years ago. She had been a resident of Cameron for many years.

Mrs. Crawford was born December 7, 1856 in Monroe County, Kentucky and came to Texas in the early days.

Funeral services will be held from the residence of T. A. Crawford on Wednesday, June 9 at 10 a. m. with interment in the old city cemetery with the Marek-Burns Funeral Home directing arrangements.

Surviving are two sons, T. A. Crawford of Cameron and J. R. Crawford of Houston. One brother, Shad Turner survives and lives in Cameron. There are 12 grand children and 14 great grand children.

### FORMER RESIDENTS TO RETURN TO OLD HOME

Reunion of the Rockdale Home Coming Association will be held in that city Sunday, June 13 it was announced in The Reporter this week. The reunion will be the 15th such celebration. The Association was organized some years ago. Rockdale was a railroad town before the rails reached Cameron, although Cameron is much older. In the years that have elapsed since the town was established many prominent Texans have been proud to name the Regal City as their home and birthplace.

These reunions bring hundreds back every year. Cards have been mailed out announcing the date of the 1948 reunion to hundreds throughout the state and out of state. The association appeals to all who have lived in Rockdale, not merely to old timers.

No fixed program has been announced and the day will be arranged on an informal basis with a get together in Fair Park.

Mrs. Grady Walston of Hearne is among the patients in Newton Memorial Hospital.

### BARTLETT CHILD DEAD OTHERS TO HOSPITAL

Infantile Paralysis spread to new localities in central Texas yesterday. Edward Lara, 5 year old son of Fred Lara of Bartlett died Monday night and his sister, Gloria two and a half years old was taken to a Dallas Hospital.

Nolanville in Bell county reported a case, Jerry Roberts, 6 year old son of Mr. and Mrs. Layton Earl Roberts and he was taken to a hospital in Dallas for treatment.

Cameron and Milam county continued to be fortunate with no cases yet reported. Clean up and preventative measures on a scale commensurate with the need have not been taken. So far we are just in the 'calculating' stage but no doubt authorities would be spurred on if cases are reported here.

### EXPERIENCE AND RECORD ARE CITED BY FRIENDS

Judge Ed Gunn, formerly of Rockdale, but now of Cameron, where he has resided for the past six years, announces his candidacy for the office of County Attorney subject to the Democratic Primary to be held on July 24th.

Judge Gunn is one among the best known men in Milam County, having been born in Milam County and has never lived elsewhere. Prior to six years ago he had lived in Rockdale and in the nearby communities, but in 1942 he moved to Cameron and assumed the duties of Criminal District Attorney for Milam County, but which office during his term was, by the Supreme Court of Texas, declared to be that of County Attorney, and the duties defined by law require the County Attorney to represent the State in the District Court and in all inferior courts of the county, as well as to be the advisor and counselor for all the officials of the County, and to represent the county as well as the State in all matters concerning the public interests of the County or its people.

Judge Gunn was born on a farm, but by close application to his educational opportunities, began his public life as a teacher in the public schools of this County, during which time he also applied himself to the study of law, and in a few years was admitted to the bar of Texas as an attorney at law, which he has followed as his life's vocation.

Judge Gunn has held a number of public positions which involved the enforcement and administration of the law and in asking for the office of County attorney of Milam County, he can offer the people a service gained by actual knowledge and experience in the problems connected with this office and its many duties.

In this announcement, Judge Gunn appeals to all the people of Milam County for "your support and votes, and if chosen as your County Attorney, will assure you that the duties and responsibilities of this office shall receive my best care and attention, and I shall render for you a service well done."

### E. L. Davis Offers For Constable In Precinct Five

E. L. Davis, well known citizen in the Sharpe community, is a candidate for Constable Precinct 5, Milam county, subject to the Democratic Primary election to be held on Saturday, July 24.

Mr. Davis was glad to have the support of many friends in the race he is going to make and they are pointing out his qualifications for this office. His formal announcement will appear in the coming issue of The Herald.

## OFFICIALS SCOUTING POSSIBILITIES HERE

(From the Daily)

Will Cameron have a clean-up—the kind that needs the recommended precautions officials say are necessary to prevent the spread of infantile Paratyphoid?

Many are asking this question. Medical and health officials are anxious to do everything they can to take such measures as are deemed necessary.

In this situation is the important matter of funds. The City is scarcely able to take on any further outlays but the officials are willing to go along on any measure within reason.

There have been no cases of P. in this county. For this the people are grateful. All of which is good and usual, but the question of whether Cameron will have a much needed clean-up—the kind that is need-

ed for just respectable sanitation is another question.

The Daily Herald has been besieged by many with suggestions, as have the City Officials and the Medical officers and sanitarians.

Based on information this newspaper wishes to inform the people that the matter is now under serious plan and consideration and it appears that we may have that Clean-Up. We shall be doused with DDT, weeds will be cut and a lot of things done, if and when such a clean up gets under way.

### CARD OF THANKS

We wish to take this opportunity to express our deep appreciation to our neighbors and friends who sent flowers or helped in anyway during the illness of Mrs. Minnie McFarland.

Mrs. Minnie McFarland and children.

Medames Tim Mitchell and John Margusik attended the Milam county E D council the past Wednesday.

## CO-OPERATION IN TEXAS SERVES ELECTRIC NEEDS

WASHINGTON, May 29 — Texas has been cited in congressional hearings as a model example of how private utilities and public power can "work together for their mutual benefit and the over-all benefit of the people."

Co-operation between the Southwestern Power Administration and the Texas Power & Light Company in bringing power from Denton Dam to REA co-operatives and other consumers was praised in recent hearings before the House appropriations committee. The testimony was made public when the appropriations bill was reported for House action.

Rep. Sam Rayburn of Bonham, who attended some of the hearings explained what he considered the basis for this co-operation.

"Mr. Chairman," Rayburn said, "there are two schools in the country which are very far apart. One school does not think there should be any public power, and the other does not think there should be any private power. We do not belong to either crowd. That is the situation down in the Southwest."

Contracts between Southwestern Power Administration and Texas Power & Light Company have brought service to "five times as much area as if the government has spent over \$1,000,000 for its own transmission facilities," according to Douglas G. Wright, SPA administrator.

This was done in spite of "bitter criticism" of the Texas Power & Light Company from other private utilities for making contracts with the government, and criticism of the Southwestern Power Administration for "making deals" with private power, Wright added.

At this point, Rep. Ben F. Jensen (Rep.) of Iowa, chairman of the appropriations committee on Interior Department funds, recalled that Rayburn had been instrumental in persuading some critics of the "deals" that Southwestern Power Administration had not "swapped away some of its rights" as they had feared.

"It is almost unbelievable to have a private utility and a government agency working together as we have been able to do in Texas," Wright

assumed. "I am not just blowing Texas' horn in saying this," the SPA chief testified, "but we are doing our best to make this sort of arrangement work outside of Texas, too."

"Despite the success of this Texas contract, we have not yet been able to come to an agreement with the utilities in the five other southwestern states," he added.

Southwestern Power Administration serves an area in Texas roughly east of Brownwood and north of the San Antonio River Basin. In addition to Texas, it includes Louisiana, Arkansas, and parts of Missouri, Kansas and Oklahoma.

## FULL PAYMENT UNDER LAW NOW POSSIBLE

WASHINGTON, June 6—Congress approved and sent to President Truman tonight legislation increasing by \$184,000,000 annually the social security payments to 3,500,000 needy aged persons, blind persons and dependent children.

House approval was by voice vote, after the senate earlier passed the measure 77 to 2.

The bill boosts by \$5 a month a federal contribution for needy aged and blind persons and \$3 a month for dependent children. This makes possible, under federal-state matching, a maximum of \$50 a month for each needy aged person and the blind, and \$27 for a dependent child.

Under the present program the maximum for the aged and blind, under the federal-state matching, is \$45 a month, for the dependent children, \$24.

Here is how the boosted benefits would work:

The needy aged and the blind—the federal government would contribute three-fourths of the first \$20 paid to a recipient. The state would pay one-fourth. Then the federal government and the state would match 50-50 up to a maximum of \$50 for each recipient. Thus, where a recipient received \$50, the federal government would contribute \$30 and the state \$20.

(The size of payments to the needy persons is determined by the various states. They now run a low of around \$15 a month in some states to a high of \$65 in Colorado, which contributes beyond the state-federal matching arrangement.)

Dependent children — The federal government will provide three-fourths of the first \$12 for the first needy children in a family, and go 50-50 with the state up to a maximum of \$27 for the first child. Each additional child in the needy family would get a maximum of \$18 under the matching system.

The increased benefits were tacked on to a bill dealing with an entirely different social security matter. The bill is designed to block a move by the administration to extend coverage under the old age and survivors insurance section of the social security law to an estimated 500,000

to 750,000 persons.

(The "old age and survivors insurance" program is distinct from the aid-to-the-needy program. The former is based on taxes on pay envelopes and payrolls, while the latter takes the form of outright grants.)

## Baby Formula Is Too "Wet" For Dry Oklahoma

OKLAHOMA CITY, June 4—The law was dry, the diapers were wet, and as for the proof—it ran about 90.

Prowler Car Officers R. L. Pratt and S. W. Stephens answered a call to a tavern. The barkeep said a woman with a small boy was bothering the trade.

At headquarters she suggested a change of diapers for the infant.

Lt. Ed White started to hand her the diaper bag when he looked inside.

The two bottles there weren't the nursing type, and the formula was altogether wrong.

Even three-cornered pants won't put pints on the square in dry Oklahoma. The police circled the lady gently around behind the bars—jail bars.

Mr. and Mrs. Pat Coleman of Corpus Christi spent the week end with her mother, Mrs. Lillian Barrett of Cameron. Mrs. Coleman remained for a longer visit.

Mrs. Leona G. White is spending a few days with her children in Houston.

## PRICE DANIEL AGREES WITH MARTIN DIES

AUSTIN, June 4—Attorney General Price Daniel Friday agreed with United States Senatorial Candidate Martin Dies of Lufkin that candidates for the United States senate are limited by statute to \$10,000 for campaign expenditures.

At the same time in a letter to Dies, Daniel said: "I also agree with you that the law should either be enforced or changed by the legislature. This office stands ready to co-operate with the proper officials in the enforcement of our civil and criminal statutes relating to campaign expenditures."

"I know of no way in which such a candidate lawfully could raise or spend in excess of that amount (\$10,000)," Daniel said.

The attorney general quoted from a letter in which he said Dies had asked whether he could raise \$60,000 from his friends for his candidacy and if Daniel knew of any way "to get around the law on this subject."

Dies also had asked whether the campaign law is clear and specific and whether Daniel would enforce such law.

"You are no doubt aware of the fact that this office does not have jurisdiction or authority to handle any criminal prosecutions except those specifically delegated by statutes to the attorney general," Daniel said. "All other criminal prosecutions are within the exclusive jurisdiction

THE CAMERON HERALD

of the county and district attorneys."

In a recent radio address Dies denounced what he said was the present policy of candidates to spend "hundreds of thousands of dollars while the law limited them to \$10,000."

## Buoyant answer to Back Road and Boulevard

White sidewall tires, as illustrated, available at extra cost.

REMEMBER that rough patch of road up yonder where the ruts and ridges make a washboard seem smooth?

Recall the tiring tenseness brought on by the drum and hum of road noise and tremor even over smooth concrete highways?

Well, clock away the miles in this stunningly styled Buick — and meet up with the sweetest answer to such matters this side of cloud cruising.

"It's a ride that's soft and smooth as velvet," folks tell us. And we tell them it comes from a host of things.

It comes from the ample road-weight of a two-ton car built low and wide — and so beautifully balanced it handles light as a baton. It comes from the leveling buoy-

ancy of Buick's all-coil springing which puts a pillow of deeply coiled steel at each wheel to soak up the bumps and ripples.

It comes from the softness of bigger, lower-pressure tires that cushion away road tremors and roughness — from the sure-footed, swerve-free steadiness of Buick's extra wide Safety-Ride rims, widest in the industry.

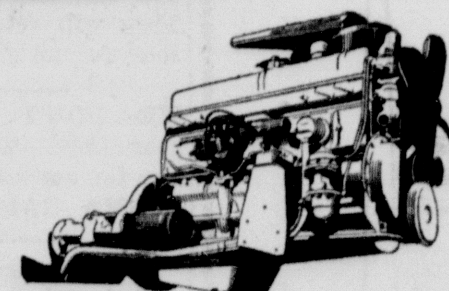

And it comes in special measure from a brand-new engineering gem we call Vibra-Shielding which banishes vibration build-up.

Here for the first time you're freed from the motoring fatigue brought on by tiny tremors piling up into bigger ones. Here your miles are made moss-smooth and quiet — long journeys become mere jaunts.

So why delay knowing the most buoyant answer to any road you ever traveled?

Come visit us now. Know at first hand the distinctive styling, the flashing action, the velvety ride over highway and byway that are Buick's and Buick's alone.

Then follow your heart's desire and get your order in promptly. We'll take it in proper sequence whether or not you have a car to trade.

### REASON FOR THE VIBRA-SHIELDED RIDE

Placed with scientific exactness, 3 fat cushions of special composition cradle the engine so as to control its vibration frequency. Engine vibration is thus kept "out of tune" with those that might come from other parts of the car. The result is to shield car occupants against tiring pulsations, cut road noise, make engine sensation almost imperceptible and motorizing practically fatigue-free.

Attending the bridegroom were: Jimmy Beavers, Tom Aderholdt, Don Kirk and Roger Chapman.

Immediately following the wedding, a reception was held at the home of the bride's parents. The dining table was centered with an arrangement of white gladioli entwined with pink maline. ## NOTED BAPTIST LEADER DIED BELTON THURSDAY

Funeral services for Dr. E. G. Townsend, noted Baptist leader and one of the early Deans at Baylor College in Belton, will be held at 3 p. m. Sunday from the Alma Reeves Chapel on the college campus in Belton.

Dr. Townsend died at 11:40 p. m. Thursday, May 3 after a long period of declining health.

The most widely known of prominent men connected with the college, Dr. Townsend became associated with the College in 1901. He had served as teacher, acting president, vice president, dean and executive secretary and in the period shortly after the turn of the century was field representative of this oldest female college west of the Mississippi River.

Aside from his duties at the College Dr. Townsend found time to serve as Mayor of Belton from July 1938 until April 1945. He was a member of the City Council there at the time of his death.

Dr. Townsend was ordained to the Baptist Ministry in 1888 in San Antonio. He was a native of Missouri.

Many Baptist and friends here plan to attend the funeral on Sunday.

### Fixed Rules Govern Infantile Paralysis Aid, Says J. R. Hays

J. R. Hays, Chairman of the committee in Milam county to administer the Infantile Paralysis Fund to aid those needing financial assistance, said early Thursday that fixed rules must be followed.

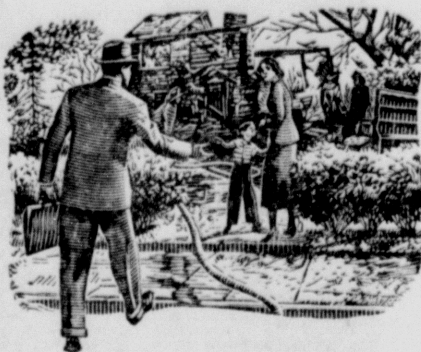

Mr. Hays explained that the funds so expended are limited. In every case the committee must be notified in advance of any patient going to a hospital if Paralysis Foundation Funds are needed.

If the committee is consulted in advance arrangements in nearly every case can be made. Incurring large hospital bill without the knowledge of the committee is adverse to the rules.

The committee is as follows: J. R. Hays, August Gurecky, Dr. C. G. Swift, Dr. T. E. Crump, Albert Collins, L. Van Perkins, Clyde Franklin. Anyone of these members may be contacted.

Possible development of an Infantile Paralysis case at Rockdale caused this explanation to be made.

### 44 NAMES SEEN FOR JULY STATE TICKET

AUSTIN—June 7 — Last minute men jumping into the U. S. senate and state office races today promised Texas democratic voters a field of at least 44 candidates in the July 24 primary.

It looks like a ballot of about the usual length. The final list will not be determined until the state democratic executive committee meets June 14 to certify candidates to the secretary of state.

From a practical standpoint, anyone who wants to withdraw has until then to have his name deleted. Candidates may actually withdraw from the printed ballot by notifying county chairman before June 21, although this is seldom done.

There were two additions to the list of candidates for U. S. senate up to mid-afternoon. They were Terrell Sledge, 42 of Kyle, farmer who ran against Sen. Tom Connally two years ago, and James F. Alford, 40, of Houston, who identified himself as an oil man.

Martin Dies name was still on the list, although he had announced he would not run. He had not asked the executive committee to delete his name as a candidate for the senate.

Turner Walker, 43, a journeyman steamfitter from Houston, filed as an opponent for Lt. Gov. Allan Shivers, who is seeking re-election.

Still without opponents a few hours before the midnight deadline were Attorney General Price Daniel, State School Superintendent L. A. Woods, and W. St. John Garwood, for associate justice of the state supreme court, place 3.

Van M. Kennedy, secretary of the democratic executive committee, said applications postmarked before midnight tonight would be accepted. That means the final list may not be known for several days.

In 1946 there were 14 candidates for Governor, five candidates for Lieutenant Governor and five candidates for United States Senator.

The 1948 ballot will not have as many names as the 1946 ballot, but will be heavy.

The Clarkson H. D. Club met Thursday, June 3 in the home of Mrs. George Dodd with eight members present. In the absence of the president, Mrs. Jim Hauk called the house to order. No roll call or minutes were read because of the absence of the secretary. Mrs. W. W. Cox was elected temporary secretary to serve until the regular secretary returns.

The program was on "Giving your Baby a Good Start" and was in the form of a radio program, with the announcer, I-M-Sound, Mrs. W. W. Cox, consultant, Dr. W. P. Wise, Mrs. John Wimberly and guests. Mrs. Com-n-Tater Mrs. Emil Skupin. This was the first of a series of these. The next one to be "Foundation in the First Six years."

## Legion Sponsored Boys State Government Gets Two Local Envoys

Two Young Cameron citizens will know more about the operation of a state government when they complete the Lone Star Boys State convention in Austin, sponsored by the American Legion.

The Cameron boys named by the local Post of the Legion are Edward Horstmann, son of Mr. and Mrs. O. B. Horstmann and Grady Allen, son of Mr. and Mrs. Grady Allen, Sr.

Mr. and Mrs. Horstmann accompanied the boys to Austin.

In practically every State in the United States the Boys' State idea has gone over big. It originated in 1935 with the idea of teaching a young boy how to be a good citizen.

Texas joined in the activities eight years ago when 34 other States were holding their Boys' State meetings.

The boys, all Seniors in high school will form a government plan and will fill the offices to be filled in this governmental set-up. They will also form the voting body at this 49th State which exists only seven days of the year.

The American Legion, which yearly sponsors the event throughout the nation, is pretty sure that letting the boys carry out some legislation is a sure-fire method of teaching them that their Government is what they make it.

When they arrive in Austin the boys are escorted to the State School for the Deaf, where they will live during the week. Included on their program besides the campaigning for offices, elections, senate and

house sessions and a big inaugural ball for the boy elected governor, is a visit to the Capitol where they will meet the top men in Texas politics and get a few tips from them on running their State Government.

A record attendance last year of 14,223 boys at Boys' States throughout the United States is one example of just how big the project is. Not every boy is eligible to attend, since the boys are representing their hometown school. They are chosen for their ability to represent by the principals of the schools.

From where I sit ... by Joe Marsh

Who is this Man?

Now and then, in the pages of the *Clarion*, I run a biographical quiz, under the heading of "Who Is This Man?" For instance ...

"He was one of the earliest lovers in American history ...

"And yet he was too shy to court a woman outright ...

"He came to the New World on the Mayflower ...

"A cooper to repair the beer barrels accompanying the Pilgrims ...

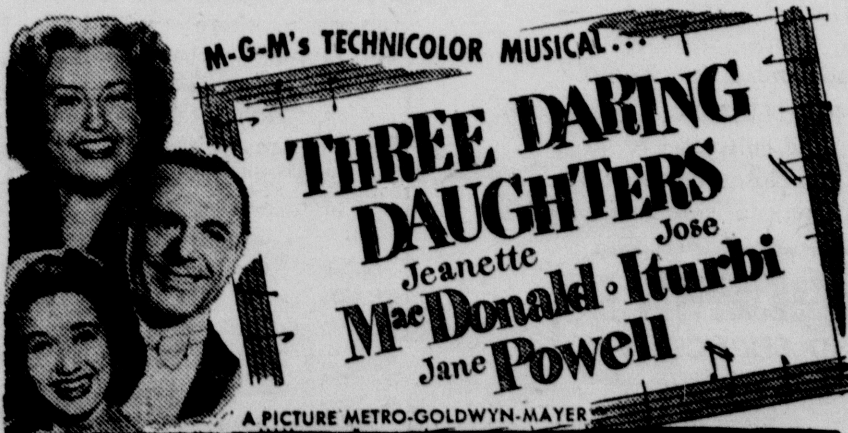

"Who is this man?"

I thought that everybody was

stumped. But not Ma Hoskins, who returned the clipping to me with "John Alden" on it. She recognized all the clues—including that reference to "beer" and "cooper."

For Ma—who's read her history, knows that beer as the beverage of moderation, is as old in this land of ours as the never-ending American search for tolerance which brought the Pilgrims over to this country in the first place.

## 104 REGISTERED FOR TOURNAMENT SUNDAY

Cameron Country Club was host Sunday to the annual invitation golf tournament with more than 200 visitors and some 104 registered for the play. This was one of the largest fields to ever compete here.

Young Bart Haltom of Bryan, Southwest conference champion, solved the fast, tricky greens of the Cameron Country Club Sunday to win the annual invitation golf tournament with a one-under-par 69.

He was the only par-breaker. The greens were too much for other contenders. Bill Parish of Marlin was second with a 71, and Carl Boice of Lampasas third with 72.

Dr. George Crutsinger of Temple won the first flight with a 78. Second was Jack Tubbs of Marlin, 79, while Paul Anderson of Temple and Bob Willingham of Waco tied for third at 80.

Bill Wallace of Cameron, with an 85, won the second flight, John Kremer of San Marcos and Bob Kelly of Marlin were tied at 86.

Howell Hundley of Temple was the third-flight winner, with 93. Tied for

second at 94 were Frank Stewart and Hal White of Cameron, Hardy Newton of Bryan and Bill Cotham of Georgetown.

Linn Baker of Temple won the driving contest with a poke of 241 yards dead into the wind. George Wagner of Waco was second and Floyd Barkley of Lampasas third.

Mac McKinney of Rockdale won the pitching contest. Second was Stanton Baker of Waco, and J. W. Stufflebeme of Cameron was third.

Temple, Rosebud, Marlin, Houston, Waco, Rockdale, Lampasas, Bastrop, San Marcos, Holland, Georgetown, Bellville, Giddings and Caldwell were represented.

Miss Mildred Matyastik, sophomore entered Mary Mardin Baylor College in Belton Tuesday, June 1 for the summer semester. She was among the honored freshman at the Texas Lutheran College in Seguin and also among the honored students of the graduation classes of Yoe High in 1947 and 48.

Mrs. Louis Le Sassier and Mrs. John Perkins of Marlin visited in the home of Mr. and Mrs. W. E. Kuehl of Cameron Thursday of the past week.

## OLD CASE THOUGHT TO BE NEW ONE REPORTED

Efforts to get hospitalization for a victim of Infantile Paralysis was interpreted by the State Health Department as a new case and the publication on Thursday that the county had a new case was found to be erroneous.

The Herald received a telephone call from John R. Hays early Friday that a mistake had been made in interpreting an application for hospitalization.

Authorities here were considerably relieved to know that there has been no Polio development in the county. The little girl affected suffered an attack of Polio some years ago and hospitalization was being sought and this application being relayed to the Committee Chairman here was misinterpreted.

Funds are available for aid to children through the March of Dimes campaign and applications should be made to the committee or any member of the committee in advance of hospitalization so the funds available can be fitted to the case.

Dr. Clifford Swift, County Health officer, said Friday that the case in Rockdale occurred some time ago and that Dr. T. S. Barkley had quickly clarified the report and that he was in no way responsible for the error that was made.

Dr. E. S. Freeman, Director of the Milam County Health Unit, said that when the news story was published he felt that an error had been made and that a correction would put the situation in its proper light.

Health authorities work in close union on these matters and this newspaper will scrupulously follow the policy of publishing releases from them in the future.

Dr. Barkley is city health officer in Rockdale and has taken similar measures there as have been taken in Temple and Cameron.

## Woodmen Celebrate Society's Birthday

June 6 is an important day in Woodcraft . . . the 58th Birthday Anniversary of the Woodmen of the World.

During this week, local Woodmen Camps will observe this Anniversary with special meetings and events. They will hold memorial services, place markers on unmarked graves of deceased fellow Woodmen, mark historic sites, etc.

Woodmen look with satisfaction on their Society's 58 years of service and its growth to become the world's financially strongest fraternal society. Its assets now exceed \$162,000,000. Its membership has

grown to more than 400,000 men and boys holding over \$462,000,000 of safe, sound Woodmen life insurance protection. It has paid \$393,000,000 plus to members and their beneficiaries in settlement of death and disability claims, retirement income, refunds and cash withdrawals.

Its 9,000 local Camps also contribute greatly to many local and national civic, charitable and patriotic enterprises.

## WOODMEN of the WORLD Life Insurance Society OMAHA, NEBRASKA

G. O. HARRIS, District Manager  
110 West 3rd Street Cameron, Texas

In 1942, Texas Power & Light Company served 176,000 customers . . . in 1946, 208,000 . . . and in 1947, 230,000!

The amount of electricity needed to supply the growing area this company serves tells a similar story. During 1947 this company supplied its customers with 27 per cent more electricity than in 1943.

The steady increase in need for electric power came at a time when further expansion of generating facilities was impossible, because during the war, all the big turbo-generators manufactured were diverted to the war program by the government.

It was the normal peacetime reserve electric-capacity this company had maintained that enabled it to supply the tremendous increase in electric power demand. This reserve is now about used up, and our big problem is to keep you supplied with electricity until new generators are received and installed.

The new generators are coming . . . three small ones are already installed and operating . . . two big ones are scheduled for delivery this year and next year. This new generating capacity will total 81,000 kilowatts (108,000 electric horsepower) to supplement our present 294,000 horsepower of electric power resources.

But between now and the time all this new capacity can be delivered and installed, there may be occasions when it will be a tight squeeze to make existing power supply go around. However, we want to assure you that we are working hard to the end that electric power may continue to flow to you in whatever quantities you may need.

## BACK TO CELEBRATING WOULD DO US GOOD

Does a community lose its aptitude for the staging celebrations and the know how to entertain when it fails year in and year out to observe our most important holidays?

The question was uppermost in the minds of many here as July 4th looms scant weeks ahead.

It may be too late to prepare for anything like a suitable observance so far as entertainment features are concerned, but we would in the time allotted do a creditable job if all organizations united under a common banner to hold our people at home and bring visitors to the city.

The Herald to-day is advancing the suggestion on the urge of a number who believe that the city is losing out in the matter of maintaining some semblance of patriotic appreciation for Independence Day.

If you will glance at the Calendar you will find that July 4th falls on Sunday this year. That means that celebrations will be held on Monday giving business men and their employes two days and we could lap up a lot of patriotic enthusiasm in 2

days and be host to a lot of people. A simple ceremony, a big political rally with state candidates would give the people a rallying point for a creditable congregation and the celebration could be topped off with a big street dance at night. Cameron has parks, stadium facilities, a champion band, a baseball team, rodeo arena and other facilities. They cost money and were made to use.

### Social Security Representative Due Here June 15

Residents of Cameron and vicinity who wish information concerning Federal Old-Age and Survivors Insurance should contact the representative of the Austin Social Security Office who will be at the Old Age Assistance Office in Cameron on Tuesday, June 15, 1:00 p. m.

The service is established to give persons of this area an opportunity to file benefit claims, obtain now and duplicate Social Security Cards, and check their wage records. Dates of future visits will be announced later.

Mrs. Hugh Ridout and son Hugh Glynn are visiting her husband's relatives in San Antonio this week.

### Dies Withdraws From Race For U. S. Senate Seat

LUFKIN, June 5—Martin Dies, candidate for U. S. Senator, said here today he was "pretty definitely" out of the race.

He said in a statement to the Lufkin Daily News that "as much as I would like to be Senator. I had rather be a one-gallus farmer on a wind-swept clay hill in East Texas with nothing to eat but goobers and chitlins than to be a law-breaking Charley McCarthy for any money hog on earth."

The former Congressman and chairman of the Committee on Un-American Activities demanded earlier that candidates in the race be made to keep their campaign expenses within the \$10,000 legal limit.

His statement said that "once again the high office of Senator will be put on the auction block and sold to the highest bidder."

"What chance would my legal bid of \$10,000 have against the million dollars of 'hot money' which is being poured into the campaign for some of the other candidates?" he asked, adding:

"There is no way that I or any other law-abiding citizen can run for Senate that I have yet discovered."

He told The Associated Press he was "pretty definitely" out of the race. Asked if that meant he was definitely out, he replied: "I guess that's right."

### Jeanette MacDonald Is Back On Screen At Cameron Thursday

Jeanette MacDonald is back on the screen in M-G-M's captivating new Technicolor musical, "Three Daring Daughters," opens at the Cameron Theatre Thursday.

The popular, golden-voiced star, who has spent the past five years on concert tours, makes an auspicious return with Jose Iturbi and young Jane Powell in a liting comedy-romance loaded with songs and unfolding the diverting story of a divorcee whose precocious children try to prevent her from marrying again.

Jose Iturbi not only plays a wide variety of selections on the key-board ranging from Liszt to Boogie Woogie, but enacts himself as the celebrity who meets Miss MacDonald on a holiday cruise and who, after winning her hand, finds himself in the formidable position of trying to win over her children as well.

Jane Powell, as the eldest of Jeanette's brood of three daughters, is the ring-leader in a plot to bring back her mother's divorced husband in time to prevent her from marrying a second. A carload of comedy complications ensue before the daughters can be persuaded that they really prefer Iturbi as head of the family but all is brought to a satisfactory conclusion to the accompaniment of Iturbi's piano wizardry and some heavenly singing on the part of both Miss MacDonald and Miss Powell.

### Clarkson HD Club Observes Home Week With Luncheon

In observance of National Home week the Clarkson HD Club gave a luncheon at the Clarkson school lunch rooms honoring all the charter members of the Club, who are mesdames Joe Hawk, W. W. Cox and Tim Mitchell.

The Clarkson HD Club was organized in 1933, with a membership of sixteen under the supervision of Miss Strange.

The principal objectives of county Home Demonstration work are to develop leadership, extend home demonstration work among both women and girls through county wide co-operation with all rural home makers and to serve as a medium through which the agent may receive information from the committees and give additional help for rural home makers.

Many games were played. The menu consisted of fried chicken, potato and vegetable salads, jelly, cake, pickles and ice tea.

Mrs. Perry Strickler, a charter member who has moved to Austin gave the members a pleasant surprise by attending the luncheon. Mrs. Robert Wimberly was also a visitor.

Mr. and Mrs. Archie Graham are the parents of a son born at Newton Memorial Hospital June 5, 1948. He weighed seven pounds and four ounces and has been named, William Newton Graham. The Graham's are of Milano. Mrs. Graham is the former, Martha Belle Elsenburg. Both mother and baby are doing fine.

Sammie Dell Markham left Sunday for a vacation visit with her aunt, Mrs. L. W. Grayson of Beeville.

Mr. and Mrs. Houston Warrell and Georgia and Jerry spent the past week end in Cameron with relatives.

## RURAL ROADS ARE VITAL

### PLANS WILL BE TAKEN UP SOON BY COMMITTEE

The good progress being made on Highway 77 and 36 is very encouraging but the local committee of the Chamber of Commerce has other plans as important or more vital.

These plans have to do with Rural or Farm to Market Roads. Since Federal money is to be received and allocated to each county the committee feels that plans should be projected and surveys made in co-operation with the County Commissioners with the view of readiness when the time arrives for the Highway Commission to authorize construction.

The Committee also has given considerable thought to information vital to a proposed bond issue in the several precincts for connecting roads.

The successful work on plans for Highways 77 and 36 in no way affects the farm to market road money. The committee feels it is essential for the Commissioners Court to begin at once to plan these roads and if the people indicate to arrange for a bond election. It is certain that if adequate roads are to be hand bonds must be voted. The people will have to put up a portion of the money.

If the Milam County Good Roads Association elects to function the bond issue could be made county wide with great benefits to all.

Friends will regret to know Mrs. Ervin Hrozek of Cameron is ill and a patient in Newton Memorial Hospital.

Carol Ann Busker of Lott is spending this week with her grandparents Mr. and Mrs. H. L. Dake of Cameron.

It is easy to meet expenses nowadays. You run into them everywhere.
